Wood Side Car Step Plate

PN 10095

Another Kurt Thomas Original - a wooden step plate that fastens atop the factory marbled metal step plate. Strictly a dress-up item, the wood adds to the "old time" look of the machine - bespeaking of generations ago when wood trim was the norm of the day. Oak wood step plate is durable, handsome and easy to maintain. Coated with Urethane for weather resistance. Comes with attachment hardware, instructions.
