Diamond Plate Weather Guard

P/N RW900178 A

Ural owners like to comment on how they own and “all metal” motorcycle but then have to explain to an onlooker “umm - except for this little guard under the headlight”. Well now we have the solution to that little issue - our diamond plate aluminum bolt-on guard to replace the black plastic piece provided by the factory. High polish finish diamond plate measurably adds to your bikes appearance regardless of color.

For That “Bolted Down” Look !
