

# Ural Maintenance

## *Cable Lubricator System*

P/N 960101 M

Free flow lubricant at all temperatures. Well lubricated cables seldom break. Keep one of these in your trunk so you can perform maintenance on the spot. Adapter tool supplied with aerosol lube allows propellant pressure to force lube thru entire length of cable - thus ensuring no dry spots that shred stranded inner cable where it cannot be seen.

Besides - sticky cables are a drag !

*Don't Get Stuck With A Broken Cable!*
