## *"Twin Stick" Fwd/Reverse Shift Kit*

Our much improved original two lever shift kit system for all Ural motorcycles. Allows shifting forward or reverse gears via hand levers alongside gas tank. Design allows normal shifting with foot shift pedal if desired. Manufactured from high quality machined and welded steel components, shift levers are bushed at pivot points, equipped with Chrome tubular steel tie rods and bright plated steel drag link tipped with spherical rod ends. Stainless steel hardware, Black powder coat painted levers, brackets and mast tube. Considerable adjustment provided to tailor shift lever positions to owner preferences. Bolt on installation - no drilling or welding required. Comes with instructions and pictures. Pre assembled for ease of installation. Requires removal of fuel tank to install system. Bushings are replaceable. Shift balls are thermoplastic material with threaded metal inserts. Reverse lever acts as easy to find neutral selector
