In-line Fuel Filters

P/N RW960110 M

ITW fused microball in-line fuel filters will catch down to the smallest particles that escapes fuel cock filters, including rust particles and water. Simple push on installation, fuel flow direction arrow on casement. Economical solution to having to clean out carburetor bowls. Clear view so you see fuel flow into carburetors, Small slim design to prevent vapor bubble locking out fuel supply as is often the case with large filters. Packaged 2 to a box. Supplied with 4 Helix self compensating 360 degree hose clamps. Filter accepts 1/4" ID fuel hose.
