## *Angled Foot Box W / Braced Crash Bar*

We built this item for Riders equipped with prosthetic left leg. Works in conjunction with our Twin Stick Shift Kit. Permits the prosthetic foot to angle outwards at a comfortable angle, Perimeter lip around foot box aids in preventing the wearers shoe going overboard. Can be equipped with Velcro safety strap. Pierced metal bottom has raised edges to aid in keeping boot from sliding around. Open design allows mud and debris to fall thru. Bolts in place - no welding or drilling required. Angle brace from modified factory crash bar both supports foot box and strengthens crash bar. Design allows standard operation of the foot shift pedal if needed. Manufactured from steel components, matt black powder coated finish, and MIG welded construction. Foot box can be unbolted from crash bar brace.
