Wheel Bearing Conversion Kit

P/N RW900163 A

Convert high drag, difficult to maintain roller wheel bearings to precision ball bearings that require no adjustment after installation. End messy maintenance chores for good. Matched length CNC billet machined steel spacers and precision machined stepped distance spacer washer packaged with 2 precision sealed ball bearings make up simple to install wheel bearing conversion kits. Billet steel parts bright zinc plated for corrosion control. Everything needed for one wheel in one box.

Gain Power - Roll With Low Drag
