Retro Trunk Rack

P/N 900109 A

Shades of the old MG's - here's a Retro rack for the Retro.! Styling clues are from the "boot" rack found on English sports cars. A nicely styled addition to an otherwise plain trunk lid. Practical as well - tie down your small luggage or soft bundles (like a sleeping bag) on this beautifully chromed steel tubular rack. Mount feet furnished with anti scratch pads. Mounts atop trunk lid hinges - no holes to drill. Tip rail at rear prevents gear from sliding off backside.

A Classic Looking Addition!
